## CALM, COOL & COLLECTED

Taking her cue from the traditional architecture and the bucolic surroundings of this Litchfield County home, designer Claudia Kalur of CFK Interiors created a serene oasis in this primary bathroom. Soft green walls are paired with crisp white woodwork for a calming effect. The vanity, designed by project architects Hottenroth & Joseph, leans toward contemporary with a Lucite base, but is grounded by Kalur's choice of classic detailing, including Kohler sinks, Sigma faucets and Waterworks lighting and accessories.
