Tractor Counter Stools by Design Within Reach were the perfect choice for this modern farmhouse. The globe light fixtures are from Rejuvenation and the gooseneck bridge faucet is by Perrin & Rowe.

A FARMHOUSE KITCHEN

CFK Interiors

Designer Claudia Kalur created this clean, modern kitchen in South Kent, CT, for a young family who divides time between New York City and Litchfield County. The home is set on eight acres overlooking Greer Mountain. The countertops are Carrara marble and the range and hood are by Wolf. Cabinets are painted in Benjamin Moore's Winter White and the island is in Benjamin Moore's Wrought Iron. cfkinteriors.com
